EDUCATION

THE UNIVERSITY OF BRITISH COLUMBIA 2019–Present
Master of Science (M.Sc.) in Statistics
Thesis supervisors: Dr. Trevor Campbell and Dr. Benjamin Bloem-Reddy.
GPA: 9.42/10.

INSTITUTO TECNOLÓGICO AUTÓNOMO DE MÉXICO 2013–2017
Bachelor of Science (B.Sc.) in Applied Mathematics
Thesis: *Bayesian Design of Experiments for Generalized Linear Models*.
Thesis supervisor: Dr. Ernesto Barrios Zamudio.
GPA: 9.69/10.

DISTINCTIONS AND AWARDS

-
- 2019 UBC International Tuition Award; \$3200 CAD.
 - 2019 Honorary Mention in the XXIV ITAM Alumni Research Awards.
 - 2018 Graduated *summa cum laude* from my undergraduate degree.
 - 2013–2017 GPA in the top 1% of my undergraduate cohort.
 - 2013–2016 75% scholarship at ITAM.

RESEARCH INTERESTS

-
- Developing theoretically-sound, scalable algorithms for Bayesian inference.
 - Statistical emulation (Gaussian process regression).
 - Probability theory (sufficiency, exchangeability, other types of symmetry).
 - Bayesian design of experiments.

ACADEMIC POSITIONS

THE UNIVERSITY OF BRITISH COLUMBIA 2020–Present
Research Assistant, Department of Statistics
I work under Dr. Nancy Heckman in the Flexible Learning project, an initiative to promote and optimize statistical teaching and learning in Canada.

THE UNIVERSITY OF BRITISH COLUMBIA 2019–Present
Teaching Assistant, Department of Statistics

- STAT 302 Introduction to Probability.
- STAT 203 Statistical Methods.
- STAT 200 Elementary Statistics for Applications.

INSTITUTO TECNOLÓGICO AUTÓNOMO DE MÉXICO 2017
Editor in Chief, *Laberintos & Infinitos*
As editor in chief of *Laberintos & Infinitos*, ITAM's Mathematics' student journal, I led a 10-people team; during my tenure, three numbers were published and the fifteen-year anniversary of the journal was successfully celebrated.

Undergraduate Faculty Member, Department of Mathematics

The Undergraduate Faculty of the Department of Mathematics is made up of senior students of academic excellence who tutor and answer questions from younger students about any of the courses offered in the Applied Mathematics B.Sc.

Undergraduate Faculty Member, Department of Statistics

EST-14102 Probability II.

- Multivariate random variables and probability distributions.
- Sequences of random variables and types of convergence.
- Law of large numbers and Central Limit Theorem.

Editor, *Laberintos & Infinitos*

PUBLICATIONS

CONFERENCE
PRESENTATIONS

PRESENTATIONS

-
- 2019 Winter SFU/UBC Joint Statistics Seminar: *Quick counts in the 2018 Mexican general election*.
 - 2018 ITAM's Mathematics Colloquium, Mexico City: *Statistics in the 2018 Mexican general election quick counts*.
 - 2017 ITAM's Mathematics Colloquium, Mexico City: *Generalized Linear Models*.

TALKS ORGANIZED

- Co-organizer of the weekly UBC Statistics Graduate Students' Seminars (2019–Present).

PROFESSIONAL
EXPERIENCE**Business Analytics Coordinator**

I developed data-driven models and analyses to discover business insights. These were usually presented to directors and managers with little to no formal statistical training.

Research Assistant

The INE formed a nine-member and twelve-advisor committee to carry out quick counts for the 2018 Mexican general election. I worked as committee member Dr. Manuel Mendoza's advisor. We improved his original Bayesian model, defined the sampling design used in Chiapas, and I developed the code for generating the official federal report.
