## EDUCATION

---

THE UNIVERSITY OF BRITISH COLUMBIA 2021–Present

**Doctor of Philosophy (PhD) in Statistics**

Supervisors: Dr. Trevor Campbell and Dr. Benjamin Bloem-Reddy.

Advanced to candidacy on August 2024.

THE UNIVERSITY OF BRITISH COLUMBIA

2019–2021

**Master of Science (MSc) in Statistics**

Thesis: *Locally-Adaptive Boosting Variational Inference*.

Supervisors: Dr. Trevor Campbell and Dr. Benjamin Bloem-Reddy.

GPA: 94.2% out of 100%.

INSTITUTO TECNOLÓGICO AUTÓNOMO DE MÉXICO

2013–2017

**Bachelor of Science (BSc) in Applied Mathematics, *summa cum laude***

Thesis: *Bayesian Design of Experiments for Generalized Linear Models*.

Supervisor: Dr. Ernesto Barrios-Zamudio.

GPA: 96.9% out of 100%.

## PUBLICATIONS AND SOFTWARE

---

### PEER-REVIEWED PUBLICATIONS

\*First Author

- [G. C. Diluvi\\*](#), B. Bloem-Reddy, and T. Campbell. (2024). **Mixed variational flows for discrete variables**. In *International Conference on Artificial Intelligence and Statistics*.
- [G. C. Diluvi\\*](#), B. Dunham, N. Heckman, M. Lee, and R. Lourenzutti. (2022). **Structured, interactive resources for teaching Bayesian inference**. In *International Conference on Teaching Statistics*.

### WORKSHOPS AND CONFERENCES

- [G. C. Diluvi\\*](#), S. Isberg\*, B. Dunham, N. Heckman, and M. Lee. (2024). **Using online student focus groups in the development of new educational resources**. In *The Royal Statistical Society International Conference*.

### SOFTWARE

- MAD Mix: Learn discrete distributions with Measure-preserving And Discrete MixFlows. <https://github.com/giankdiluvi/madmix>.
- LBVI: Bayesian inference via locally-adapted boosting variational inference. <https://github.com/ubc-bayes/mixinf>.

### NON-REFEREED PUBLICATIONS

- [G. C. Diluvi](#) (2019). **How does it make you feel?** *Significance*, 16(3), 26–29.
- [G. C. Diluvi\\*](#), M. Mendoza, and G. Orantes (2018). **Statistics in the 2018 Mexican general election quick counts**. *Laberintos e Infinitos*, 48, 29–37.
- M. Mendoza, [G. C. Diluvi](#), and G. Orantes (2018). **Description of the Bayesian estimation model, stratification design, and sample size for Chiapas..** *Scientific, logistic, and operational criteria for the Quick Counts and sampling design protocol*, 43–45 and 53–67.

## CONFERENCES

---

### TALKS

- 2023 SFU/UBC Joint Statistics Seminar: *Mixed variational flows for discrete variables*.
- 2022 ICOTS 11: *Structured, interactive resources for teaching Bayesian inference*.
- 2021 UBC Statistics Seminar: *Locally-adaptive boosting variational inference*.
- 2020 UBC Social Exposome Cluster Research Day: *Reliable statistical inference with complex, heterogeneous data*. (Prize for best master's presentation.)
- 2019 SFU/UBC Joint Statistics Seminar: *Quick counts in the 2018 Mexican general election*.

### ORGANIZED

- 2021 SFU/UBC Joint Statistics Seminar (co-organizer).
- 2019–2021 weekly graduate student-run seminars at UBC Statistics (co-organizer).

### CHAired

- 2021 WNAR of IBS Distinguished Speaker Q&A with Dr. Michael I. Jordan (co-chair).

## RESEARCH POSITIONS

---

THE UNIVERSITY OF BRITISH COLUMBIA 2021–Present

**Research Assistant**, Department of Statistics

Supervisors: Dr. Trevor Campbell and Dr. Benjamin Bloem-Reddy

Doctoral research focused on developing algorithms for Bayesian inference over discrete variables.

THE UNIVERSITY OF BRITISH COLUMBIA

2020–2023

**Research Assistant**, Department of Statistics

Supervisor: Dr. Nancy Heckman

Research focused on improving introductory instruction of Bayesian inference and on assessing interactive simulations in development via think-aloud sessions with students.

THE UNIVERSITY OF BRITISH COLUMBIA

2020–2021

**Research Assistant**, Department of Statistics

Supervisors: Dr. Trevor Campbell and Dr. Benjamin Bloem-Reddy

Master's research project that combined ideas from MCMC and boosting variational inference to develop a novel algorithm for Bayesian inference.

## TEACHING POSITIONS

---

THE UNIVERSITY OF BRITISH COLUMBIA

2021–2024

**Teaching Assistant Trainer**, Department of Statistics

Organize and facilitate the yearly TA orientation workshop for incoming TAs. Supervise and give 1-on-1 feedback to new TAs.

THE UNIVERSITY OF BRITISH COLUMBIA

2019–2022

**Teaching Assistant**, Department of Statistics

- Spring 2022: STAT 450 Case Studies in Statistics.
- Spring 2020: STAT 302 Introduction to Probability.
- Spring 2020: STAT 203 Statistical Methods.
- Fall 2019: STAT 200 Elementary Statistics for Applications.

INSTITUTO TECNOLÓGICO AUTÓNOMO DE MÉXICO

2017

**Undergraduate Faculty Member**, Department of Mathematics

Answer questions from Applied Mathematics undergraduate students.

INSTITUTO TECNOLÓGICO AUTÓNOMO DE MÉXICO

2016

**Teaching Assistant**, Department of Statistics

- Spring 2016, Fall 2016: EST-14102 Probability II.

## SERVICE

---

### REVIEWER

- International Conference on Teaching Statistics (ICOTS).

### SERVICE TO UBC

- 2023 UBC Faculty of Science external review, graduate student participant.
- 2021 UBC Statistics external review, graduate student participant.

## DISTINCTIONS AND AWARDS

- 
- 2021–2024 UBC Four Year Doctoral Fellowship.
  - 2021 UBC Faculty of Science Killam Teaching Assistant Award nomination.
  - 2021 UBC Department of Statistics Teaching Assistant Award.
  - 2020 UBC SEC Research Day: prize for best master's presentation.
  - 2019 XXIV ITAM Alumni Research Awards: Honorable Mention, applied math category.

## PROFESSIONAL EXPERIENCE

### PFIZER INC

2016–2019

#### **Business Analytics**

Intern (2016), Analyst (2017), Coordinator (2018), Sr. Coordinator (2019)

I developed data-driven analyses and presented them to marketing directors with no formal statistical training. My last two projects were leading the development of a company-wide dashboard used in monthly in-depth business reviews and training a random forest model to identify potentially-loyal physicians.

### MEXICO'S NATIONAL ELECTORAL INSTITUTE (INE)

2018

#### **Research Assistant**

The INE formed a nine-member and twelve-assistant committee to carry out quick counts for the 2018 Mexican general election. I worked as a research assistant for committee-member Dr. Manuel Mendoza. We improved his original Bayesian model, defined the sampling design used in Chiapas, and I developed the code for generating the official report for the Presidential election.

## OTHER RELEVANT EXPERIENCE

### THE UNIVERSITY OF BRITISH COLUMBIA

2022–2024

**Graduate Student Representative**, Department of Statistics

### THE UNIVERSITY OF BRITISH COLUMBIA

2020–2022

**Statistical Consultant**, Department of Statistics

Some of the projects that I have worked on:

- 2022 The use of the R sounds in the variety of Portuguese spoken by Santomean immigrants in Portugal (*mentor*).
- 2021 The right to Vancouverism: social reproduction placemaking in the revanchist city.
- 2021 Sample size calculations and statistical analysis of key e-commerce metrics.
- 2020 Functional consequences of TMEM30A mutations in the survival of lymphoma.
- 2020 The sporting history and athlete development pathway of Canadian university athletes.

### INSTITUTO TECNOLÓGICO AUTÓNOMO DE MÉXICO

2015–2017

**Editorial Team Member**, Laberintos & Infinitos

Editor (2015–2016), Editor in Chief (2017)

Mathematics, statistics, and actuarial science student journal.
